Sequence to sequence models

Bleu score (optional)

Evaluating machine translation

French: Le chat est sur le tapis.

Bleu
bilingual evaluation understudy

Reference 1: The cat is on the mat. ←

Reference 2: There is a cat on the mat. ←

MT output: the the the the the the.

Precision: $\frac{7}{7}$

Modified precision: $\frac{2}{7}$

Count clip ("the")
↑
of 'the'

Bleu score on bigrams

Example: Reference 1: The cat is on the mat. ←

Reference 2: There is a cat on the mat. ←

MT output: The cat the cat on the mat. ←

	Count	Count _{clip}	
the cat	2 ←	1 ←	
cat the	1 ←	0	4
cat on	1 ←	1 ←	<hr/>
on the	1 ←	1 ←	6
the mat	1 ← ↑	1 ←	

[Papineni et. al., 2002. Bleu: A method for automatic evaluation of machine translation]

Andrew Ng

Bleu score on unigrams

Example: Reference 1: The cat is on the mat.

Reference 2: There is a cat on the mat.

→ MT output: The cat the cat on the mat. (\hat{y})

$$p_1 = \frac{\sum_{\text{unigram} \in \hat{y}} \text{count}_{\text{clip}}(\text{unigram})}{\sum_{\text{unigram} \in \hat{y}} \text{count}(\text{unigram})}$$

Handwritten notes: "unigram" is written below the denominator's summation index. "count(unigram)" is written next to the denominator's summation term. "count_clip(unigram)" is written next to the numerator's summation term.

$$p_n = \frac{\sum_{\text{n-gram} \in \hat{y}} \text{count}_{\text{clip}}(\text{n-gram})}{\sum_{\text{n-gram} \in \hat{y}} \text{count}(\text{n-gram})}$$

Handwritten notes: "n-gram" is written above the numerator's summation index. "count_clip(n-gram)" is written next to the numerator's summation term. "count(n-gram)" is written next to the denominator's summation term.

$$p_1, p_2 = \underline{1.0}$$

Bleu details

p_n = Bleu score on n-grams only

p_1, p_2, p_3, p_4

Combined Bleu score: $BP \exp\left(\frac{1}{4} \sum_{n=1}^4 p_n\right)$

BP = brevity penalty, penalize translation that is too short

$$BP = \begin{cases} 1 & \text{if } \underline{MT_output_length} > \underline{reference_output_length} \\ \exp(1 - MT_output_length/reference_output_length) & \text{otherwise} \end{cases}$$
